SKILLS

JavaScript • TypeScript • SQL • Python • Java

TECHNICAL SKILLS

React.js, Next.js, Redux, Tailwind CSS, Tan Stack Query, shadcn/ui, Node.js, Express.js, MongoDB, REST APIs, GraphQL, JWT Auth, Redis, AWS (EC2, S3, CloudFront, Load Balancer), Docker, CI/CD, Git, GitHub, GitLab, Postman, Vercel, Cloudinary, Multer, Web Sockets, Razorpay, Google Maps API, AI APIs (Gemini), Agile

INTERNSHIP

Full Stack Developer Intern

TDS Avenue Code Forge | Aug 2024 – Jan 2025

- Developed the complete frontend and backend for Vidya Nexus, a multi-role school management system catering to Super Admin, Admin, Teacher, and Student functionalities.
- Designed and implemented secure REST APIs, integrated JWT authentication, and optimized MongoDB schemas for enhanced performance.
- Developed backend services for Fresh Picked, a vegetable delivery application, with a focus on scalability and data integrity.
- Collaborated closely with founders and designers, taking full ownership of feature development from ideation through to deployment.

Software Development Intern

Tech Walnut Innovation LLP | Jan 2025 – Jun 2025

- Contributed to 60% of the frontend development for a Hospital Management System, utilizing reusable React components for modularity.
- Built a modern HRMS frontend featuring real-time data rendering and a responsive user interface.
- Enhanced application performance and maintainability by adhering to clean architecture principles.

EDUCATION

Nagpur, Nagpur, Maharashtra

B. Tech in Electronics & Telecommunication - 7.24 CGPA (Nov 2022 – May 2025)

PROJECTS

Cold Mailer AI

- Engineered an AI-powered cold email generation tool, adopted by students and sales professionals.
- Implemented core functionalities including email generation, editing capabilities, and history tracking for authenticated users.
- Designed scalable APIs and optimized frontend state management for a seamless user experience.

Hirrd

- Developed a role-based job platform connecting candidates and recruiters, featuring real-time functionalities.
- Integrated real-time features using Web Sockets and implemented JWT-based authentication for secure access.
- Incorporated Cloudinary for efficient image uploads and Redux for robust state management.

- Event Coordinator, Rasta Foundation (NGO) - Organized awareness campaigns and community events.

- Team Member, Adhyaaya @ GCOEN - Supported planning and execution of technical events.
